Education

Manav Rachna International Institute Of Research And Studies

Faridabad, Haryana

Master of Computer Applications

2024 – 2026

- **Relevant Coursework:** Data Structures and Algorithms (JS), Prob & Stat in CS (Python), Intro to CS II (C++), Linear Algebra w/ Computational Applications (Python)

Maharshi Dayanand University

Rohtak, Haryana

Bachelor of Computer Applications

2020 – 2023

- **Relevant Coursework:** Programming Fundamentals (C/C++), Database Management Systems (DBMS), Operating Systems, Web Technologies (HTML/CSS/JS)

Internship

StaxTech

June 2025 – July 2025

Full-Stack Development Intern

Delhi, India

- Implemented microservices architecture using Node.js and Express, improving API response time by 25% and enhancing performance by 30%.
- Developed secure RESTful APIs, optimizing server load by 30% and increasing deployment efficiency.
- Built **dynamic, responsive front-end interfaces** using **React.js**, integrating reusable components and improving user interaction speed.
- Conducted **API testing and debugging** with **Postman**, ensuring seamless integration across all modules.

Projects

Currency Converter | *React.js, Material-UI (MUI)* → [Click Here](#)

- The **Currency Converter** is a modern web application built using **React.js**, **JavaScript**, and **Material-UI (MUI)** that delivers real-time, accurate currency conversions through a sleek, responsive interface. Designed with a **dark theme and vibrant gradient**, it offers an exceptional and intuitive user experience. The project showcases expertise in **front-end architecture**, **API integration**, and **performance optimization**, emphasizing clean design, smooth interactions, and efficient state management for seamless functionality across all devices.

Text Editor | *React.js, React-DOM, React-Toastify* → [Click Here](#)

- This project features **dynamic font loading and real-time text styling control**, enabling users to **instantly edit and preview text** with their chosen fonts, weights, and styles. It highlights advanced implementation of **interactive UI design**, **state management**, and **responsive rendering**, delivering a seamless and visually engaging text customization experience.

Technical Skills

- **Languages:** JavaScript, Python, Java, C/C++, HTML5, CSS3
- **Frameworks / Libraries:** React.js, Redux, Angular, Express.js, Tailwind CSS, Node.js
- **DataBase:** MongoDB, SQL
- **Tools & Platforms:** Git, GitHub, REST APIs, VS Code, Postman, Responsive Web Design

Leadership, Achievements, and Certifications

- **President, XDev Club MRIIRS — Web, App Development, and UI/UX Club** — Leading the club in organizing coding events, workshops, and hackathons focused on AI and software innovation.
- **Certified MERN Stack Developer** — Issued by **LinkedIn Learning**. Validated expertise in **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- **Git & GitHub for Developers** — Issued by **GitHub**. Demonstrated proficiency in version control, repository management, and collaborative workflows.
